

**WHERE GUY PARK AVE. WOULD BE EXTENDED TO CHURCH ST. —** This final number of the arterial series showing proposed changes in the Amsterdam street system indicates the general route for extension of Guy Park across the municipal parking lot and Chuctanunda Greek and thence easterly to Church St. through removal of buildings including the Church St. residence of Dr. A. T. Morey just north of Grove St. While this extension is not an essential part in either north-south or east-west arterials, it does offer additional opportunity for westbound continuance by vehicles coming from Grove St. and coming from Market St. north of Guy Park Ave. The research that preceded this photographic series and the pictures themselves are the work of Recorder staffer Hugh P. Donlon.
