

*Arterial Series No. 3*

**WHERE NORTH ARTERIAL WOULD CROSS TO MARKET ST. —** Under the proposed arterial plan, northbound traffic would continue up Church St. to a point opposite City Hall, from which this photo was taken. The Dr. E. R. Skodinski residence (shown left) would be removed as the planned route continues across the city-owned parking lot and across the Chuctanunda Creek, and around the Fiber Glass Industries building, on the right. In the center is the "Flatiron Building," between Market and Shuler Sts., to be passed on the right by the North Arterial.
