

Arterial Scrapbook No. 7

STRAIGHT AHEAD HERE - When the new eastbound Route 5 Arterial has been completed, a vehicle proceeding along West Main St., like the car in the photo, will not veer left toward East Main St. It will continue straight ahead in paralleling the New York Central Railroad tracks across the present Bridge St.,

past Railroad and Walnut to Washington St. At Washington, eastbound Rout 5 will return to East Main. All of the buildings showing in this photo, except the town's skyscraper in the rear, will be removed. Also to go is the Bridge St. overhead showing at the right. (Donlon)
